

Fandom exploratory testing session

- 25 minutes (1 pomodoro block)

1. Community Programs Hub banner design issue

source	https://community.fandom.com/wiki/Community_Programs_Hub
operating system	macOS
browsers	Google Chrome - Safari
other	dark mode; signed out
issue	The low contrast between the text's color and the background color in the banner's design makes it difficult to read the word 'hub' , thereby disrupting accessibility.
extra	For example, simulation of the protan color blindness (red-green color blindness that makes up approximately 20% of all color deficiency cases). The letter 'B' is hardly visible.

The banner in light mode vs dark mode

2. The hovering edit button is not working correctly

source	https://community.fandom.com/wiki/Community_Programs_Hub
operating system	macOS
browsers	Google Chrome - Safari
other	signed out
issue	The hovering edit button works only on the very top of the page. It doesn't open the editor if the user goes anywhere beyond the top . It is only scrolling the page slightly.
extra	On the attached images, the golden banner gives off a golden glow when being hovered over.
video link	https://www.dropbox.com/scl/fi/5q6y9dqjf323xju097auh/Screen-Recording-2024-04-22-at-06.11.28.mov?rlkey=srvd7lbxwg12b0262x8tj8d0s&st=ld8mi3nk&dl=0

3. No highlight for the dark purple option of the sub gallery.

source	https://community.fandom.com/wiki/Community_Programs_Hub
operating system	macOS
browsers	Google Chrome - Safari
other	signed out
issue	While hovering on the elements of the sub-gallery, all elements have a 'glow effect' around them except for the one which has the Fandom's standard dark purple color. Not a serious issue but it surely has an impact on the overall perception of the sub-gallery and its elements.
extra	On the attached images, the golden banner gives off a golden glow when being hovered over.
video link	https://www.dropbox.com/scl/fi/uutdj1z7m6s7qjweknzs2/Screen-Recording-2024-04-22-at-06.14.16.mov?rlkey=3n9vgtrzu6spqzdsrx1btbaun&st=h7ahd9us&dl=0

4. Disrupted list of items by a 'show less' button

source	https://community.fandom.com/wiki/Community_Programs_Hub
operating system	macOS
browsers	Google Chrome - Safari
other	signed out
issue	The positioning of the list of elements (recent events) is disrupted by the button 'show less'.

This screenshot shows the 'Recent events' section of the Community Programs Hub. It displays two event cards:

- SEO Office Hours**
When: Friday, 4 months ago (on 2023-11-17), at 17:00
Where: on the Fandom Discord Server
[Click here to view the event!](#)
- Wydarzenie społeczności: „Jak wprowadzić życie w społeczność wiki?” [Wymaga roli "Polish"]**
When: Saturday, 5 months ago (on 2023-10-21), at 16:00
Where: on the Fandom Discord Server
[Click here to view the event!](#)

A 'Show less' button is located at the bottom of the event list.

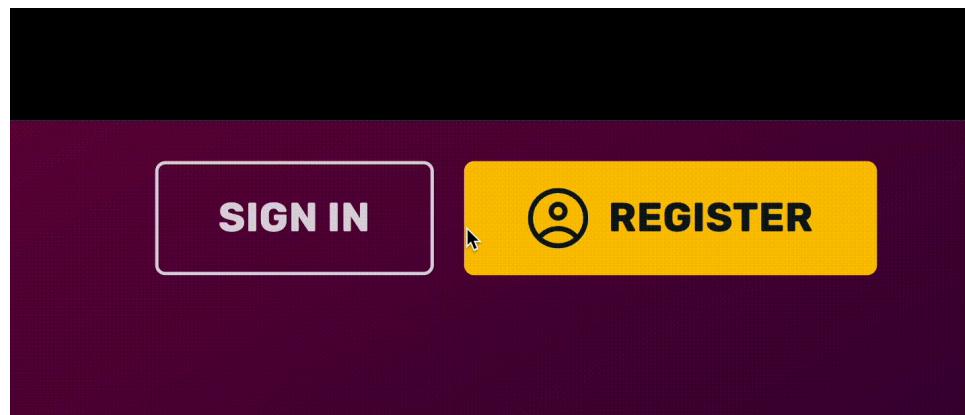

This screenshot shows the 'Recent events' section followed by the 'Categories' section and the 'Fan Feed' section.

- Categories**
Community content is available under CC-BY-SA unless otherwise noted.
[\[Show\]](#)
- Fan Feed**
 - More Community Central**
 - 1 Help:Contents
 - 2 Help:Interactive Maps
 - 3 Help>Create an account
 - Fallout Wiki** - Fallout Wiki
 - Cartoon Network** - The Cartoon Network Wiki
 - Powerhouse** - he sandbox

5. The sign in button not changing colors on hover

source	https://www.fandom.com/fancentral/home
operating system	macOS
browsers	Google Chrome - Safari
other	signed out
issue	In the code, the button seems to react correctly to the action of hovering - the color changes, but the issue is both colors (although named differently) are of the exact same value - #fff.
extra	For reference, on the main Fandom page, the sign in button is of color #f5f3f5 usually and of color #ded7de when hovering over it.
video link	main page: https://www.dropbox.com/scl/fi/cfta22r15vbrjkatveazv/Screen-Reco rding-2024-04-22-at-06.32.07.mov?rlkey=hr87wref6pwda61s4zefmlotp&st=5v7ipbod&dl=0 fancentral: <a href="https://www.dropbox.com/scl/fi/9nmy8pld9cdvs88aj8n9l/Screen-Re

85lqfn&st=4hymysjz&dl=0">https://www.dropbox.com/scl/fi/9nmy8pld9cdvs88aj8n9l/Screen-Re cording-2024-04-22-at-06.33.19.mov?rlkey=jwbzdqbeweiwjayv8es 85lqfn&st=4hymysjz&dl=0

A. The main Fandom page

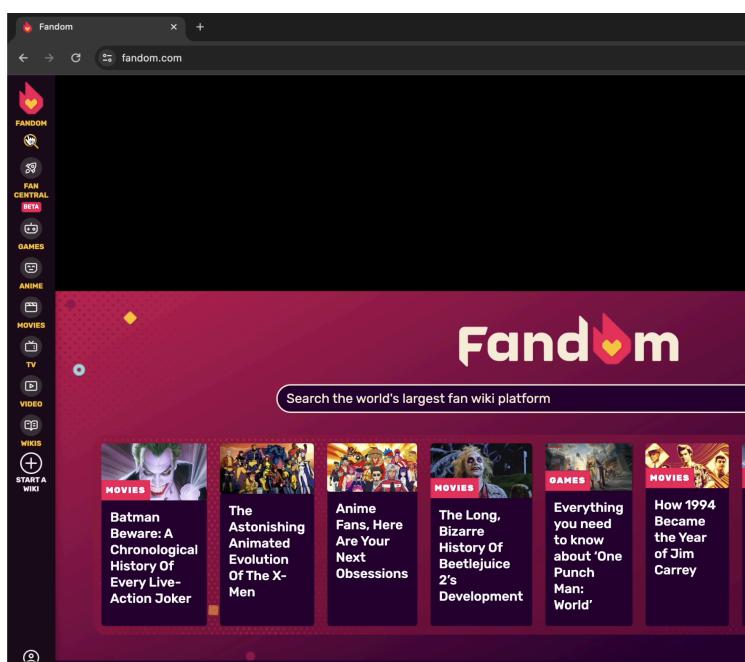

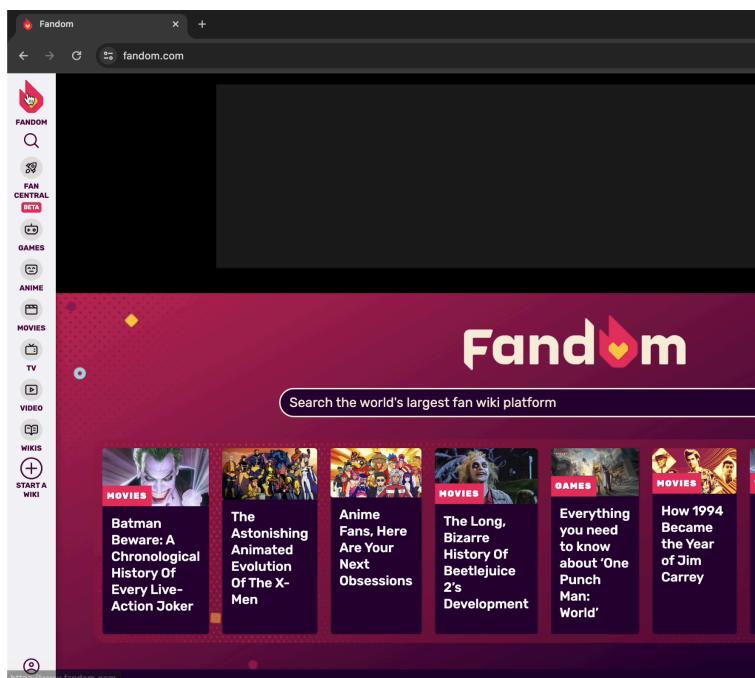

B. The Fancentral page

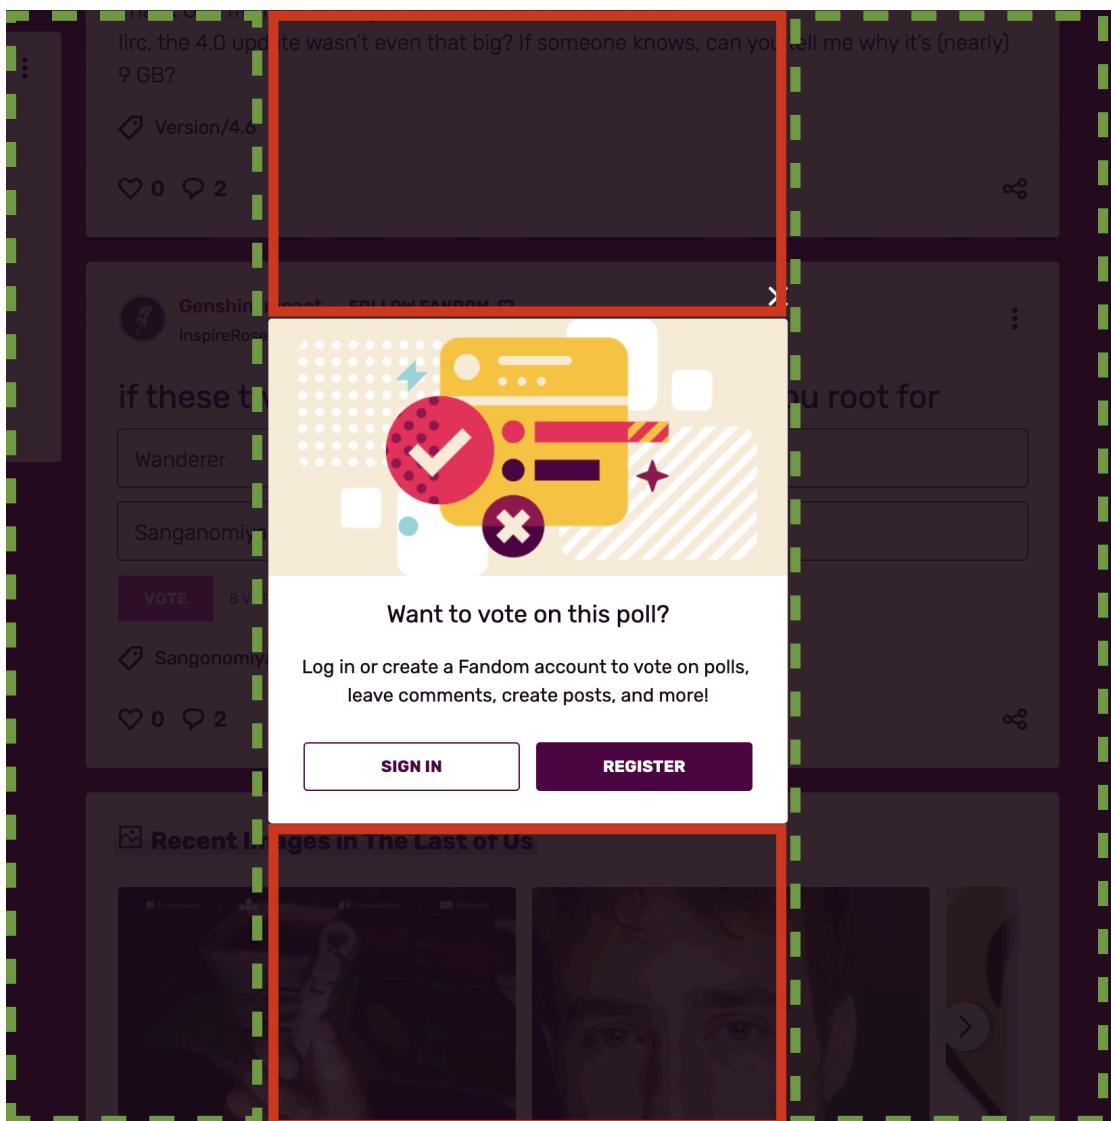

6. Fandom main menu 'glitching' while changing pages on dark mode

source	https://community.fandom.com and https://www.fandom.com/fancentral/home
operating system	macOS
browsers	Google Chrome - Safari
other	signed out
issue	For a second the main Fandom navbar is white (light mode version) while using dark mode and switching pages.
video link	https://www.dropbox.com/scl/fi/g56cwtzwr7w0t2wwjzm/Screen-Recording-2024-04-22-at-06.30.36.mov?rlkey=j2coe9nohsdb0t0pjwifux5yf&st=6g1q12xn&dl=0

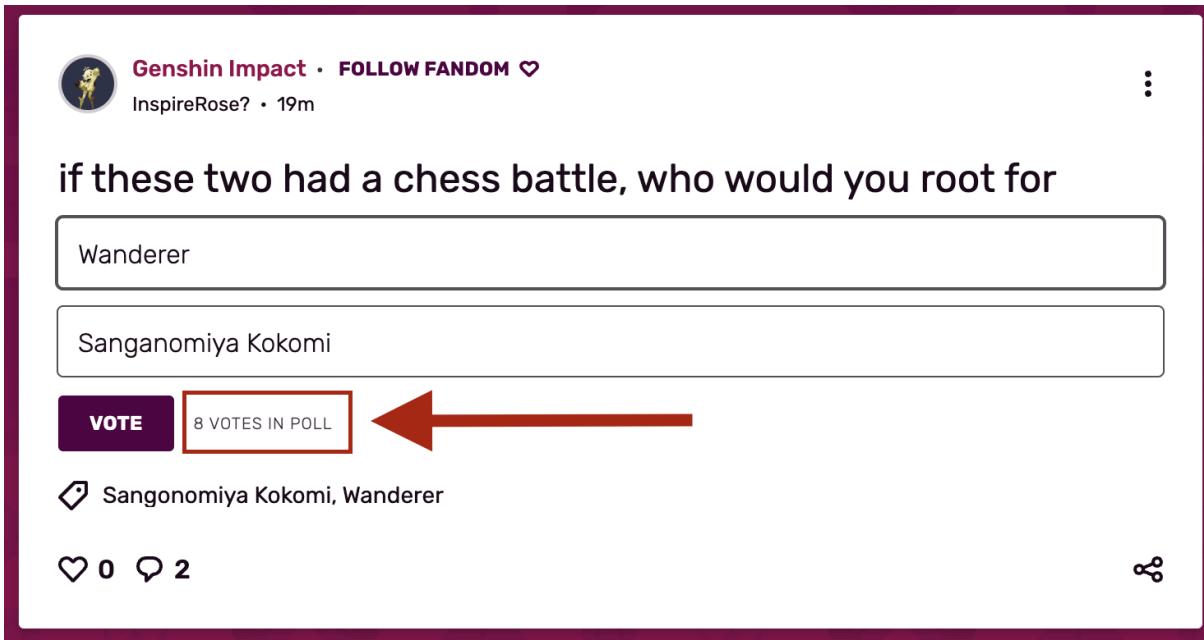

7. The sign in/register pop up cannot be closed by clicking above or below it

source	https://www.fandom.com/fancentral/home
operating system	macOS
browsers	Google Chrome - Safari
other	signed out
issue	Closing the popup is not possible by clicking anywhere on the background.
extra	On the image below, clicking anywhere within the green area results in closing the pop up, but doing so within the red ones does nothing.
video link	https://www.dropbox.com/scl/fi/bgeaacwcwrn404vfgbzuf/Screen-Recording-2024-04-22-at-06.45.53.mov?rlkey=hx6cxiri4qb7ud7sp4e0bdygq&st=gxppisgz&dl=0

8. The votes for the poll appear to be a clickable element but are not

source	https://www.fandom.com/fancentral/home poll: https://genshin-impact.fandom.com/f/p/4400000000000450442
operating system	macOS
browsers	Google Chrome - Safari
other	signed out
issue	The ‘x votes in poll’ appears to be clickable due to a change in cursor (from a standard one to a little hand), but there’s no action happening after clicking on it .
extra	The switch from a standard cursor changes to a hand is used to signal the item we’re hovering over is clickable. If it’s not, the usage of the hand is confusing.
video link	https://www.dropbox.com/scl/fi/0oji51tvin5a7qenp7m13/poll-votes.mov?rlkey=dswvhigpo3bwvv3fjasjgw3m8&st=ftuel6uu&dl=0
